

VISION OF CURRICULUM EXCELLENCE

We the educators of the Denison Community School District, hold forth this vision of the curriculum of excellence we desire for all our students. We have a dream of a curriculum that is challenging, fosters the attitude of lifelong learning, and is characterized as being:

MEANINGFUL

The curriculum emphasizes active participation in real-life experiences so that all students find purpose in their studies and see the connections between subject areas.

SOCIALLY RESPONSIBLE

The curriculum develops a sense of responsibility to others. Students learn to work together successfully, becoming aware of their obligations and duties in a democracy.

GROUNDING IN EACH SUBJECT'S BASIC CONTENT

Courses will develop basic skills, knowledge and abilities.

EMPHASIZES THINKING SKILLS

The curriculum fosters skills and attitudes that enable students to think critically, creatively, and constructively.

DENISON COMMUNITY SCHOOLS

The curriculum process will continually evolve in response to student and societal needs.
